

ॐ Proud Indian

Brand guidelines.

The logo, colour, type and voice of Proud Indian, and how to use them.

Version 1.0

October 2026

Proud Indian · Bengaluru

Contents

One idea per page. Every logo in this document is the final artwork from `logo/` in the design package. Nothing has been redrawn.

Facts and numbers come from the project's design records and `logo/README.md`. Where a value is a recommendation rather than a recorded decision, the page says so.

01 · Who we are

Volunteer-run, in Bengaluru.

Proud Indian was founded in Bengaluru on 26 January 2019. Its volunteers, the **Optimists**, plan and run every programme, mostly at weekends, alongside children from low-income communities.

Teach.

Weekend sessions, the Math Challenge and planetarium trips.

Paint.

Kalakriti, our yearly festival of arts and culture.

Feed.

Nutrition drives and health check-ups.

Gather.

Gift a Smile, Helios solar lights, clean-ups and animal care.

95%

 of funds go to
programmes

The website opens with one invitation: **Be an Optimist**. Everything in this brand serves that line, and the people behind it.

02 · The idea

Side by side.

Two figures stand on one baseline. The adult's arm rests across the child's shoulder. It reads as support and company: an Optimist standing alongside a child, which is what our volunteers actually do.

- 1 First read: two people.** An adult and a child, side by side. This carries the identity.
- 2 Second read: π .** The two figures and the arm make the shape of pi. It also nods to the Math Challenge.
- 3 Third read: P + I.** Read as letters, the pair suggests a P and an I: Proud Indian.

The π and P + I readings are a reward for people who notice. We don't lead with them when introducing Proud Indian. The symbol has no face, no hand and no lamp or flame, so it stays clear of political and religious symbols. The old bulb-and-raised-palm logo was retired because a front-facing open palm is an election symbol in India.

03 · The symbol

Calm geometry, one soft **gesture.**

The symbol is built from three parts: two circles and one body contour. Everything is straight lines with eased corners, except the arm, which eases down onto the child's shoulder.

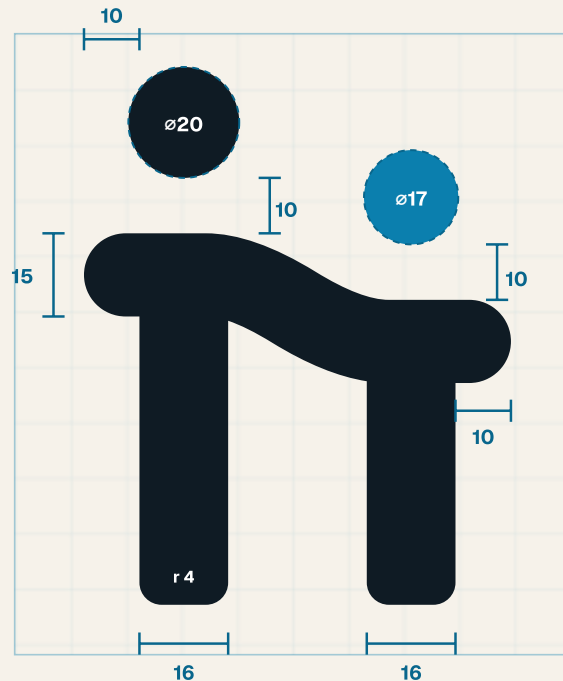

- **The child is the hero.** The child's head is the only colour in the logo: deep cyan on light grounds.
- **Stand and reach.** Stems stand on squared feet; the arm ends round.
- **Serious, with character.** Flat colour, no face, no gradients. The playfulness lives in the website's illustrations, not in the logo.
- **Black first.** It reads in one colour, so it survives receipts, rubber stamps and embroidery.

"A logo identifies. It rarely describes."

Paul Rand, 1991, quoted in our logo research. The meaning of the symbol is earned by the work behind it.

04 · Construction

Construction, clear space and minimum sizes

Master grid, 100 × 112 units. Stems 16; arm one 15-unit stroke (horizontals drawn about 6% lighter so they look equal); heads ø 20 and ø 17 (0.85); both heads 10 above their shoulder; arm overhangs 10 each side; true r 4 feet. The visible artwork is centred, then nudged 1 unit toward the lighter side.

Clear space: one adult-head diameter (20 units) on every side of the visible artwork. In the lockup that is about 0.3 × the cap height.

Minimum sizes

USE	MINIMUM
Screen, symbol	24 px 16 px: hand-built favicon only
Screen, lockup	24 px tall use the compact lockup below 32 px
Screen, seal	64 px below that, use the disc
Print, symbol	5 mm
Print, horizontal lockup	8 mm tall
Rubber stamp or ink seal	8 mm symbol · seal 18 mm
Embroidery	13 mm symbol , one colour only

Stamp and embroidery sizes keep the 10-unit head gap above 0.7 mm and 1.27 mm, the limits for rubber and thread. All are still to be confirmed with physical proofs.

05 · The wordmark

Anek Latin, semi-condensed, drawn to match the symbol

Proud Indian

Why Anek Latin

It is serious without being cold, stays legible at 24 px, and comes from Ek Type, an Indian foundry, with matching **Anek Kannada** and **Anek Devanagari** on the same width and weight axes. No other candidate had a ready Latin, Kannada and Devanagari system from one family.

ಪ್ರೌಡ್ ಇಂಡಿಯನ್
ಪ್ರೌಡ್ ಇಂಡಿಯನ್

Companion preview only (Anek Kannada and Anek Devanagari, width 88). Indic logotypes will be drawn and tuned to the same rules when needed.

Drawn from the symbol

Width	88 upright and slightly condensed, like the figures
Weight	681 letter stem 9.0 at cap height 40, equal to the symbol's arm
Stem ends	eased r 2.4 the symbol's feet
i-dot	round, 1.3 × stem rhymes with the heads
Case	Title Case reads as a proper name, an institution
Colour	never cyan one cyan dot in the system: the child

Spacing and letterspacing

- The wordmark is outlined artwork. **Never retype it** in a font, and never track it out.
- Letters keep the font's own spacing, set as a tight logotype and kerned by area.
- Word space Proud ↔ Indian: **18 units, 0.45 × cap.**
- Symbol to wordmark: **0.75 × cap**, so the symbol never reads as a third word.
- From 24 to 40 px use the **small master** (wm-H-small.svg): weight 659, stems 8.67, more open spacing.

06 · Lockups

Three lockups, one geometry

The feet stand on the baseline and the adult's shoulder lines up with the cap height (symbol scale = $\text{cap} \div 67 = 0.597$). Symbol stems 9.55 against letter stems 9.01. The gap to the wordmark is $0.75 \times \text{cap}$. Always use the supplied files.

Proud Indian

Wordmark only `pi-wordmark.svg`. Recommended only where the symbol already appears on the same surface, such as the back of a tee or a running footer.

Horizontal primary

Letterhead, reports, receipts, certificates, signage. The default whenever there is room.

`pi-lockup.svg`

Stacked

Tees, square and portrait spaces, signage where width is short.

`pi-stacked.svg`

Compact

Small screen sizes: the website header pill at 26–30 px, and any lockup under 32 px tall. The symbol is enlarged so it stays legible.

`pi-lockup-compact.svg`

At real size

Compact below 32 px; horizontal above. Minimum 24 px tall on screen, 8 mm in print.

07 · Colourways

Pick the file by the ground it sits on

 **Proud Indian**

Full colour on paper or white

Ink figures, deep cyan #0B7FAE child's head.

`pi-lockup.svg`

 **Proud Indian**

Reversed on ink, on screen

Paper figures, bright #4CC0EC head, shapes thinned 0.25 units for irradiation. `pi-lockup-reversed.svg`

 **Proud Indian**

One colour (ink) on sky

Both heads ink. Never a cyan head on a cyan ground.

`pi-lockup-mono.svg`

 **Proud Indian**

One colour

Fax, newspaper, laser receipts, stamps, embroidery.

`*-mono.svg`

 **Proud Indian**

Reversed out of ink, in print

The mono file in paper colour. Ink spread does the thinning, so don't use the screen-reversed file.

Rules

- Deep cyan head on light grounds; bright cyan head on ink.
- Never #4CC0EC on paper (1.87:1). Never #0B7FAE on ink (3.88:1).
- Marigold is never part of the logo.
- On photos, use a paper or ink panel, or the disc.

08 · Colour palette

Sky, ink and paper. Marigold means donate.

Sky <code>--pi-sky</code> HEX #4CC0EC RGB 76 192 236 CMYK* 68 19 0 7 Bands, the logo's bright head on ink, large graphics. Only ink text sits on it.	Sky deep <code>--pi-sky-deep</code> HEX #0B7FAE RGB 11 127 174 CMYK* 94 27 0 32 The child's head on light grounds, graphics, type 24 px and up.	Sky ink <code>--pi-sky-ink</code> HEX #08668C RGB 8 102 140 CMYK* 94 27 0 45 Small cyan text on paper (eyebrows, links), accent words on paper.	Ink <code>--pi-ink</code> HEX #0F1B24 RGB 15 27 36 CMYK* 58 25 0 86 Text, the logo, dark bands, primary buttons, outlines.	Paper <code>--pi-paper</code> HEX #F6F2EA RGB 246 242 234 CMYK* 0 2 5 4 Calm sections, sticker outlines, reversed logo.	Paper 2 <code>--pi-paper-2</code> HEX #EFE9DE RGB 239 233 222 CMYK* 0 3 7 6 A second paper for cards, tape and layered panels.	Marigold <code>--pi-sun</code> HEX #F4A62A RGB 244 166 42 CMYK* 0 32 83 4 Donate actions only , plus the Kalakriti accent on ink. Never in the logo.
--	---	---	--	---	--	---

Usage ratio (recommended, %): paper 44 · sky 26 · ink 20 · sky deep and sky ink 7 · marigold 3 or less, only on donate actions. Derived from the website's section rhythm; not a recorded decision. *CMYK values are straight sRGB conversions for reference only. Match printed colour against a proof, not these numbers.

09 · Contrast and accessibility

Pairings, with their real contrast ratios

WCAG 2.x ratios computed from the hex values. AA needs 4.5:1 for body text and 3:1 for large text (24 px, or 18.7 px bold) and graphics.

● passes for all text ● large text and graphics only ● not allowed

10 · Typography

Aa

**Bricolage
Grotesque 800**

Display and headings.
Weight 800, normal width,
sentence case. Tracking
−0.035em. Leading 0.86
for display, 1.0 for section
titles. Numbers and stats in
Bricolage 800, tabular
where aligned.

Aa

Geist

Body and interface.
Regular at 17–19 px, line-
height 1.3–1.45. Buttons
and chips in Geist 600 with
a 1.5 px ink outline. Text is
solid ink or paper, never
pale grey on cyan.

No italics. Bricolage has none; emphasis is an accent word. Both fonts are OFL, self-hosted on the site. Anek Kannada and Anek Devanagari are reserved for Indian scripts.

Website type scale

140–300	Optimist. Hero word
92–96	Four ways we show up. Section title
40–56	Your next weekend, sorted. Sub-heading
26–34	Kalakriti 3.0 Card title
19 / 1.42	Optimists are the volunteers. Lead text

Sizes in px at desktop width, taken from the website build.

Give once.
Light up a
weekend.

Every rupee,
on the
record.

Accent words. On sky: white fill, 1.5 px ink stroke, 3 px ink offset shadow, at 40 px and up only. The outline carries the contrast. On paper: plain sky ink. On ink: marigold, for Kalakriti only.

11 · Disc, app icons, favicon

Small spaces get their own artwork

Ink disc

reversed figure, bright head. Default
avatar. `pi-disc.svg`

Sky disc

ink figure, by the mono rule.
`pi-disc-cyan.svg`

One colour

figure knocked out of the disc.
`pi-disc-mono.svg`

App tile, rounded

for previews and slides.
`pi-app-tile.svg`

Full-bleed square

the platform rounds it.
`pi-app-tile-square.svg`

Favicons

16 hand-built
(shown x4)

16 on dark
(shown x4)

16

32

48

180 touch icon

The 16 px favicon is a hand-built pixel map with whole-pixel stems and a clean row between each head and the arm. Never replace it with a scaled-down master. `favicon.svg` switches to paper and bright cyan in dark mode.

Social avatars

Instagram 110 px crop.
The disc fills it edge to edge.

WhatsApp 49 px in chat lists. Both heads stay separate.

LinkedIn the sky disc carries the one-colour figure.

Upload `logo/social/avatar-1080.png` (or `avatar-400.png`). App icons in `logo/favicon/`: `icon-192.png`, `icon-512.png`, `apple-touch-icon-180.png`.

12 · Seals

Seals mark documents and occasions

Geist ring text around the locked symbol. Each seal has colour, one-colour and stamp-production artwork.

Main seal

Proud Indian · Bengaluru · since 2019

`pi-seal.svg`

80G seal

80G and 12A receipts, certificates

`pi-seal-80g.svg`

Volunteer seal

Optimist badges `pi-seal-volunteer.svg`

Kalakriti seal

Kalakriti 3.0 · 20 Sep 2026

`pi-seal-kalakriti.svg`

Stamp production

`pi-seal*-stamp-production.svg`.
One colour, flat vector, heavier inner ring (2.2) because rubber needs it, no filters. Send only these to a stamp maker. Minimum 18 mm.

Screen only

`pi-seal-80g-SCREEN-ONLY-texture.svg`. The ink texture is an SVG filter for mockups and the website. **Never print it.** A real stamp makes its own texture.

A seal is decoration, not proof of registration. Registration numbers always appear in the document's text.

13 · Graphic language

The playful layer lives here, not in the logo

Stickers, polaroids, tape and hand-drawn doodles give the website its warmth. Use them around content, never on the logo.

Cut-out stickers

Real children, cut out with a 5 px paper outline and a soft shadow, tilted up to about $\pm 5^\circ$.

Polaroids and tape

White frame, 1.5 px ink border, offset ink shadow, a Bricolage caption. Taped with translucent sky or paper tape.

The clothesline

Programme photos hang from marigold pegs on a hand-drawn ink string.

Hand-drawn doodles

Sun, paper plane, bird, star, sparkle, arrow. One line: 3 px ink, round caps and joins. Fills only from the palette.

Become an Optimist →

Donate

01 · Education

80G · 12A
registered

Sticker pills

Geist 600, 1.5 px ink outline, 3 px ink offset shadow, slight tilt.

14 · Photography

Real children, real days, **real joy.**

- **Real.** Our own programmes, from our own albums. Never stock.
- **Consented.** Use only photos taken and shared with consent for Proud Indian's use.
- **Child-centred.** Prefer children over adult volunteers. Show what children do: paint, perform, learn, play.
- **Joyful, not pitiful.** Pride and fun, never need or distress.
- **No watermarks in use.** Use clean originals, or crop clear of old watermarks.
- **Cut-out stickers.** Cut a child out cleanly, add the paper outline, and let the figure break a frame or stand on a band edge.
- **Protect identities.** Crop or blur name badges so no child's full name is readable.

From our albums: a planetarium visit, group dance and rangoli at Kalakriti 3.0, and an art-and-craft session as a cut-out sticker. Older photos are cropped clear of the old watermark.

15 · Motion

Motion that never hides anything

The resting state is the finished state.

Content is never hidden behind an animation.

Cheap to run.

Animate only transform, opacity and stroke-dashoffset.

Reduced motion respected.

`prefers-reduced-motion: reduce` turns all of it off.

Pause control.

A visible "Pause motion" toggle in the footer (remembered between visits) stops the loops site-wide and disables autoplaying one-shots, as WCAG 2.2.2 requires.

One loop at a time.

The sun and the marquee never appear on screen together on phones.

MOMENT	WHAT MOVES	WHEN
Sun	Rays turn once every 60 s; paused off-screen	Loop
Hero stickers	Slap on with a squish; the seal stamps on last	Once on load
Marquee	Programme names, 38 s per loop; pauses on hover and focus	Loop
Doodle lines	Loops and underlines draw themselves	Once in view
Stickers	Wobble on hover or tap	Interaction
Paper plane	Flies a dashed path to "Become an Optimist"	Once in view
Donate matka	Coins drop when an amount is picked; never blocks the button	Interaction
Pointing hand	Nudges the main call to action once after idle time	Once
Footer doodles	Static at about 30% opacity; wiggle on desktop hover	Interaction

Not used: count-up numbers, paint splashes, confetti, tumbling letters. The logo itself is shown still.

16 · Voice and tone

Short. Warm. Plain English.

- **Short sentences, one idea each.** Verbs over abstractions: teach, feed, paint, gather.
- **Warm, not sentimental.** Invite people in; never guilt them.
- **Volunteers are Optimists.** "Become an Optimist" is the call to join.
- **True, to the number.** Stats and registration details stay exact. No per-rupee impact claims.
- **Weekends, not weekly.** Sessions are mostly at weekends; never promise "every Saturday".
- **Kalakriti is a festival.** A yearly, full day of arts and culture. Never a "workshop".

INSTEAD OF

Volunteers needed!

SAY

Give a weekend, or give once. Either way, you're an Optimist. No experience needed.

17 · Do and don't

Keep it serious. Use the supplied files.

X Don't stretch or squash

X Don't rotate

X Don't recolour the heads

X Don't use bright cyan on paper

X Don't add shadows or effects

X Don't place on busy photos

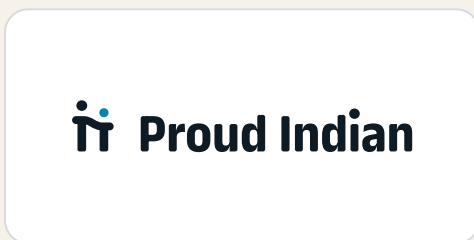

X Don't add a face

X Don't retype the wordmark

X Don't crowd it
Keep one adult-head diameter clear

X Don't use a cyan head on sky

✓ Do full colour on paper

✓ Do the reversed file on ink

✓ Do one colour ink on sky

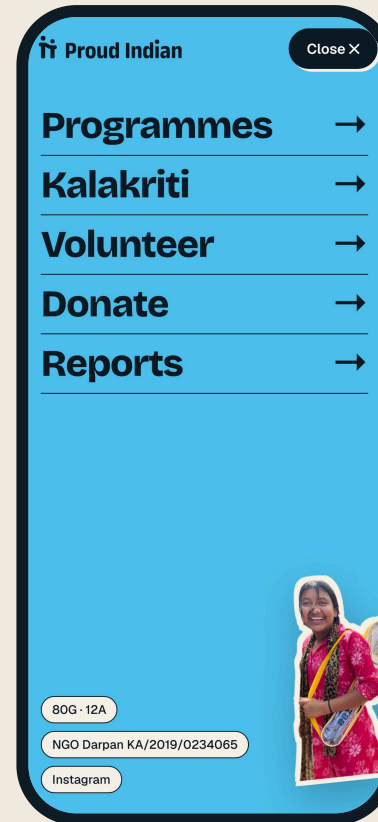

✓ Do the disc on photos

18 · Applications: screen

On the website and in feeds

Footer. Reversed lookup on ink, bright head, beside the registration stamps.

Phone menu. One colour ink on sky.

Social. The ink disc as avatar; reversed artwork on ink posts.

19 · Applications: print and wear

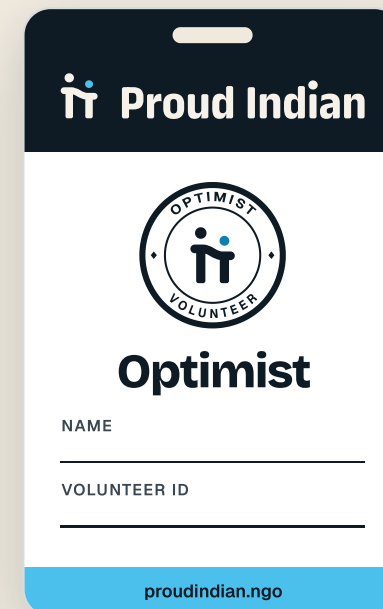

Formal where it counts, friendly where it's worn

Letterhead. Horizontal lockup, registrations in the text.

Certificate. Lockup, occasion seal, plain type.

Volunteer badge. Reversed lockup on ink, volunteer seal.

Volunteer tee. Stacked reversed. Embroidered: one colour, symbol 13 mm or larger.

20 · Marketing: social posts

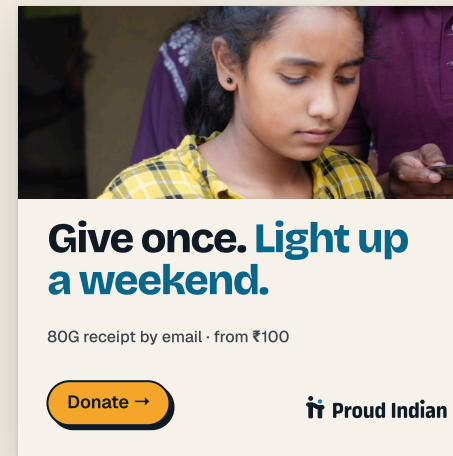

One post, one message, the logo in a corner

Instagram post, volunteer call
1080 × 1080 · one-colour ink lockup on sky

Instagram post, Kalakriti 3.0 recap
1080 × 1080 · reversed lockup on ink, marigold accent

Instagram post, donation appeal
1080 × 1080 · full-colour lockup on paper, marigold only on Donate

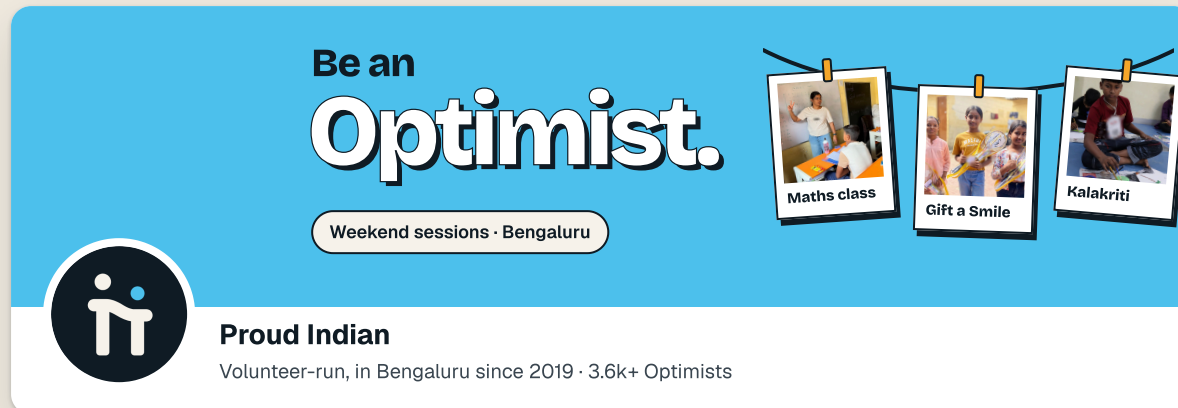

Instagram story
1080 × 1920 · one-colour ink lockup on sky

The ink disc (`logo/social/avatar-1080.png`) is the profile picture on every platform, so posts carry only a small lockup. Event details in the story are a sample.

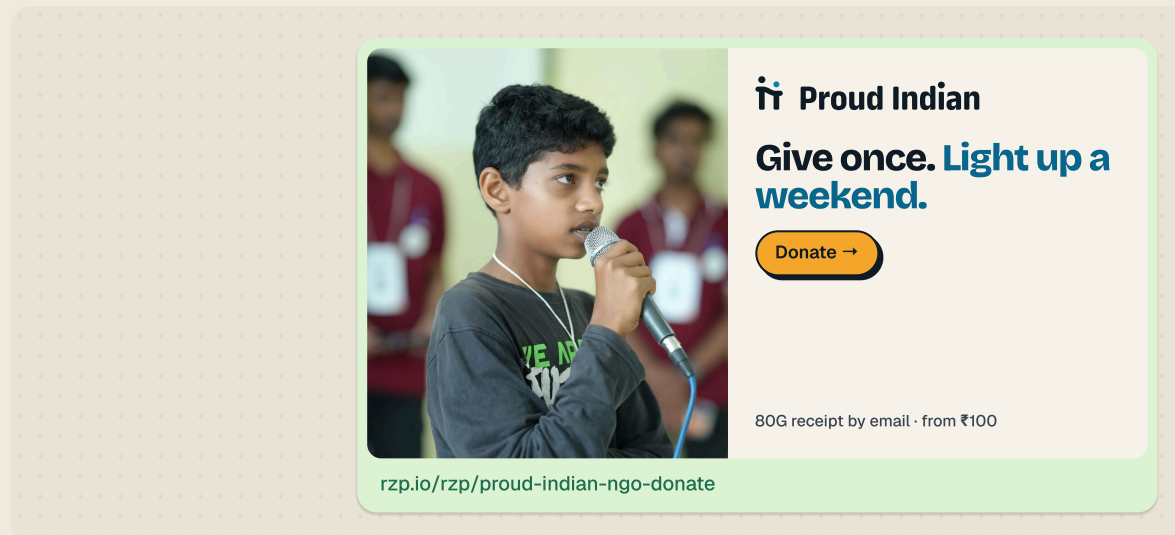

20 · Marketing: banners, share cards and email

Wide formats keep the logo off the busy side

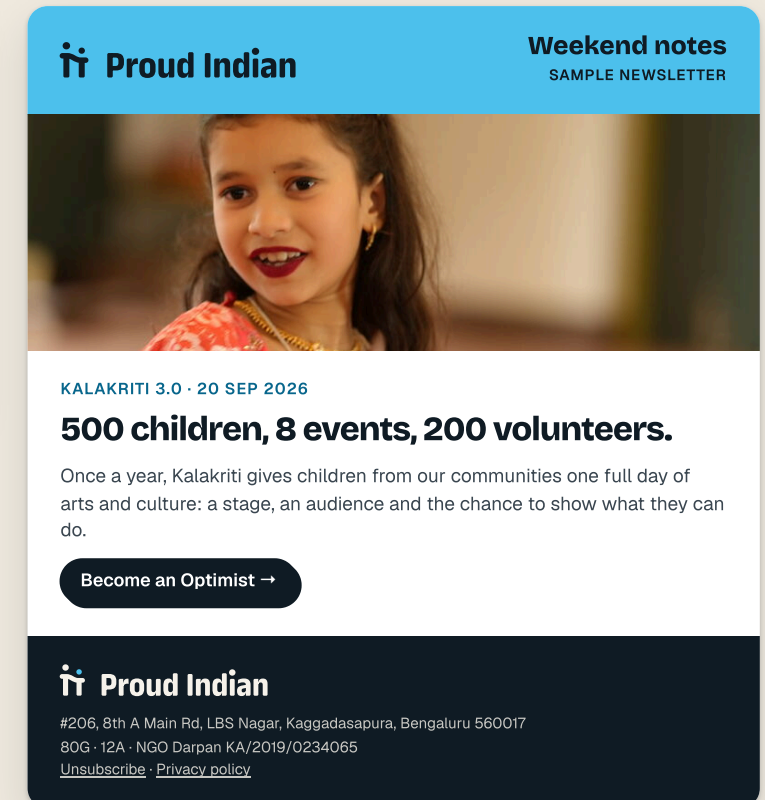

LinkedIn cover

1584 × 396 · no logo in the banner; the ink disc is the avatar

WhatsApp share card

1200 × 628 (1.91:1) · full-colour lockup on paper

Email newsletter header and footer

600 px wide · one-colour ink on sky header, reversed on ink footer

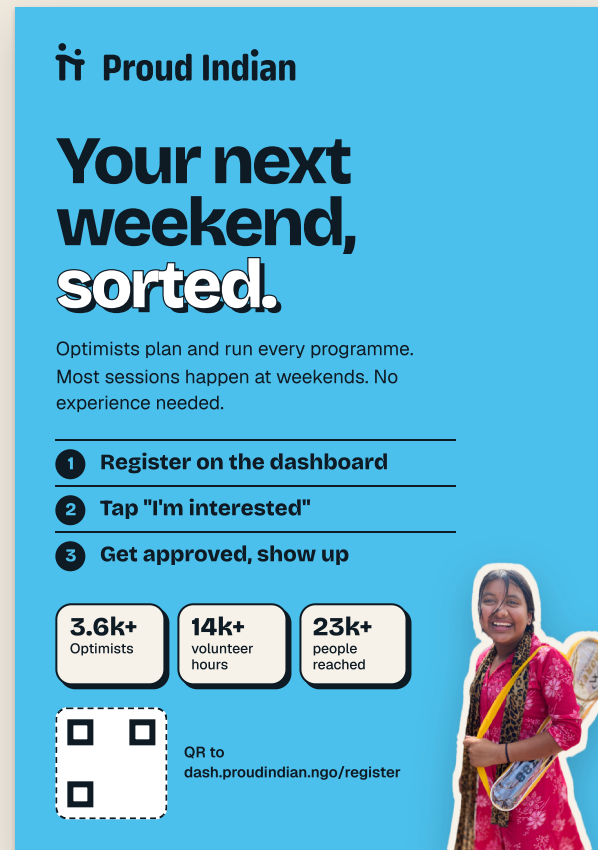

20 · Marketing: print

Posters, flyers and leaflets

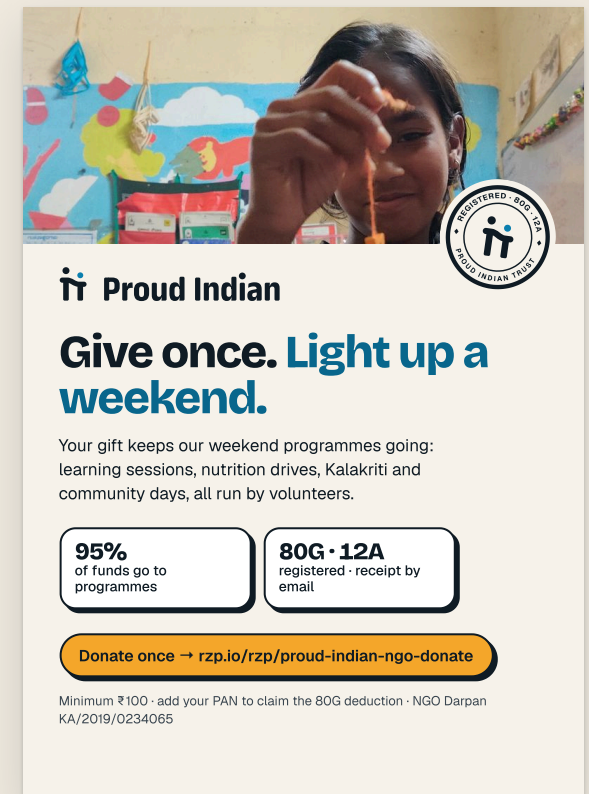

Kalakriti festival poster

A3 portrait · reversed lockup on ink, Kalakriti seal on a paper disc

Volunteer flyer

A4 portrait · one-colour ink lockup on sky

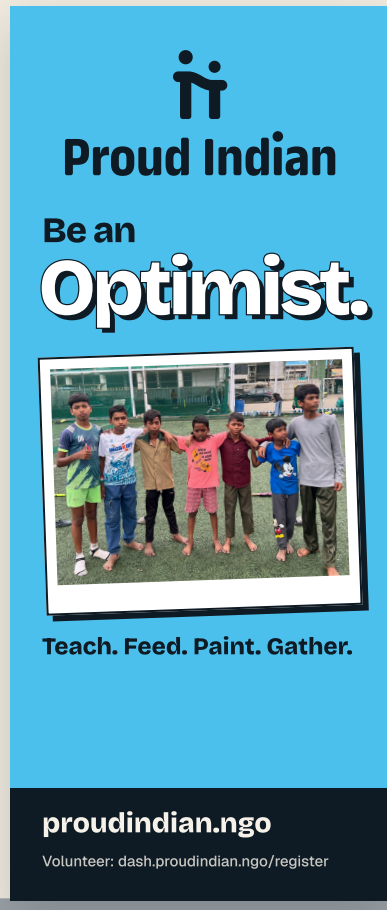

Donation leaflet

A5 portrait · full-colour lockup on paper, 80G seal

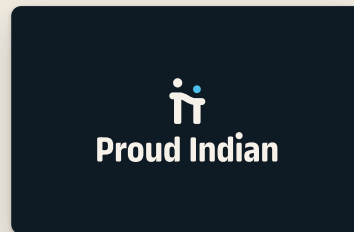

20 · Marketing: events and cards

At the event, the logo stands tall and travels light

Roll-up standee

85 × 200 cm · stacked one-colour ink on sky, URL band on ink

Visiting card

85 × 55 mm · front: stacked reversed on ink; back: full colour on paper

Proud Indian

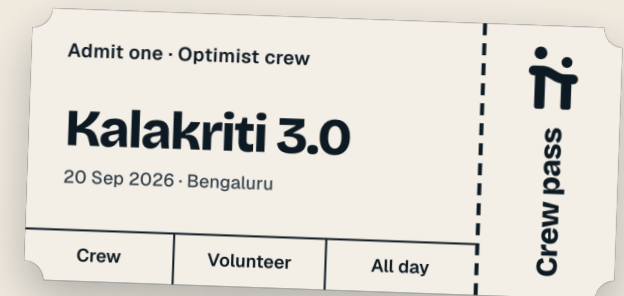

Somasundaram A
Secretary

connect@proudindian.ngo
+91 99864 31321
proudindian.ngo

Lanyard

20 mm woven strap · one colour, paper on ink, symbol 13 mm or larger

Crew pass and wristband

the website's Kalakriti ticket style · one-colour ink symbol on paper and sky

20 · Marketing: merchandise

Merchandise is one colour, and it's always the supplied file

Tote bag

natural canvas · stacked lockup, one-colour ink screen print

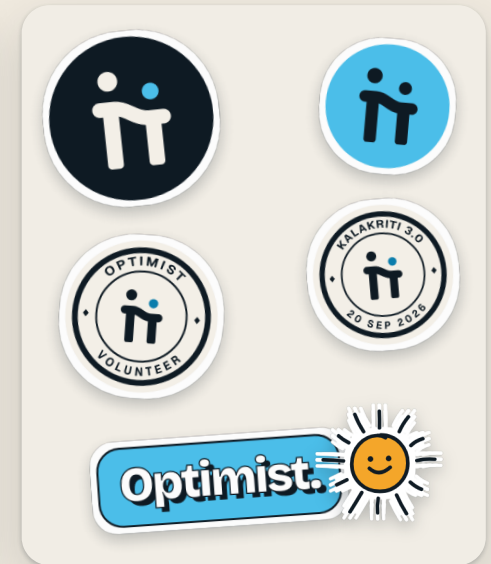

Cap

ink twill · symbol embroidered one colour in paper, 13 mm or larger

Mug

white ceramic · horizontal lockup, one-colour ink

Sticker sheet

A6, die-cut · ink and sky discs, volunteer and Kalakriti seals, "Optimist." and the sun doodle

Print and embroidery use the `-mono` files in a single ink. Stickers are the one place colour artwork goes on merchandise, because they are printed as artwork, not on fabric.

20 · Marketing: presentations and email signature

Slides and signatures

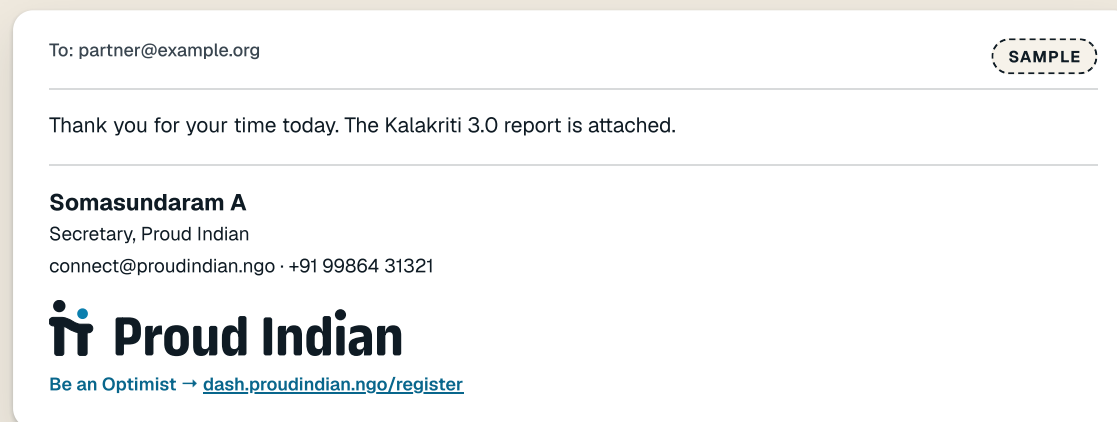

Title slide

16:9 · one-colour ink lockup on sky, accent words, one cut-out

Content slide

16:9 · compact full-colour lockup in the footer, page number right

Email signature

compact lockup, 28 px tall PNG at 2x, full colour · plain text, no banner images

21 · Files and contact

Use the files. Ask if unsure.

All logo artwork lives in `logo/` of the design package (`@proudindian/design`), with a README explaining which file goes where. Vector (`logo/svg/` , `logo/seals/`) for everything you can; PNG (`logo/favicon/` , `logo/social/`) for avatars, app icons and favicons.
